

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A tracer gas bag for a stator bar leak test comprising a polymer sheet having four marginal edges, each covered with a strip of double-sided adhesive tape, said polymer sheet adapted to be folded over a stator bar end and sealed to itself and the stator bar end along said marginal edges via said strips of double-sided adhesive tape.
2. (Original) The tracer gas bag of claim 1 wherein said double-sided adhesive tape comprises an acrylic adhesive on a polypropylene substrate.
3. (Previously Presented) The tracer gas bag of claim 1 wherein the polymer sheet comprises a polyvinyl chloride film.
4. (Original) The tracer gas bag of claim 1 wherein said double-sided adhesive tape has a width of about two inches.
5. (Original) The tracer gas bag of claim 1 wherein said polymer sheet has a thickness of about 8 mil.

6. (Previously Presented) The tracer gas bag of claim 5 wherein said polymer sheet has a length of about 24-36 inches and a width of about 12-18 inches.

7. (Previously Presented) The tracer bag of claim 1 wherein said double-sided adhesive tape comprises an acrylic adhesive in a polypropylene substrate and the polymer sheet comprises a polyvinyl chloride film.

8. (Currently Amended) A tracer gas bag for a stator bar leak test comprising a polymer sheet having four marginal edges, each covered with a strip of tape with exposed adhesive thereon; wherein said polymer sheet has a length of about 24-36 inches and a width of about 12-18 inches, said double-sided adhesive tape has a width of about two inches, and said polymer sheet has a thickness of about 8 mil; wherein said polymer sheet is adapted to be folded over a stator bar end and sealed to itself and the stator bar end along said marginal edges via said strips of double-sided adhesive tape.

9-15. (Cancelled).
